Dr. Harmon C. McCallister, Ph.D.
Research Director
The Council for Tobacco Research - USA, Inc.
900 3rd Avenue
New York, N.Y. 10022

Dear Dr. McCallister:

We are happy to report that the MSU/Keystone Symposium on "Molecular Basis of Oxidative Damage by Leukocytes: was very well received by speakers and participants. A number of new scientific connections were established. In fact, a number of individuals told us that it was the best Keystone (UCLA) conference they have attended. We enclose an example of the congratulatory letters that we have received.

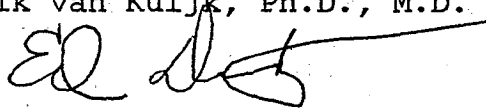

We are currently writing summary reports on this conference for the Journal of Cellular Biochemistry, Immunology Today and the New Biologist. Preprints of these articles will be sent to you in the near future. In addition, we are negotiating the publication of a book on the entire proceedings with CRC Press.

Our successes in this endeavor would have been impossible without the generous support of Merrel Dow Research Institute. Thus we wish to reiterate our gratefulness for your efforts in obtaining this funding for our meeting. Thank you once more for your prompt and enthusiastic support.

Sincerely,

Algirdas Jesaitis, Ph.D.

Erik van Kuijk, Ph.D., M.D.

Edward A. Dratz, Ph.D.
